Installation Guide
# Suspended Ceiling Grid System LED Light Panel
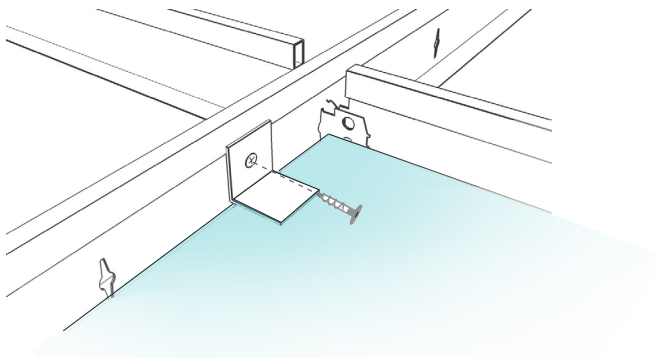

YOU WILL NEED

TEC SCREWS

METAL ANGLES
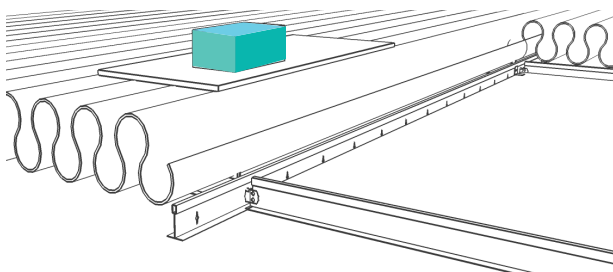

---

step 1

step 2

step 3

step 4

Step 1
Construct ceiling grid as per manufacturers instructions.

Step 2
Place the LED Light Panel in the grid. Ensure that building insulation material does not cover, or come into contact with any part of the panel

Step 3
Attach a metal 20 x 20 x 20mm angle at all corners of the LED Panel and fix these into the grid. Alternatively, place clips on the grid to positively fix the Panel in place.

Step 4
Place the Driver above the insulation. Either fix to the structure above or place on the
