

Screw Fix 16mm and 28mm

The T&R Screw Fix System is a flexible, high quality, cold formed steel, direct fix or fully suspended grid system, specifically designed for screw fixing sheet linings to form flat monolithic ceilings, bulkheads and strapping.

Features and Advantages

- Fully rolled edges on the primary components to ensure safer handling
- Clips and accessories specifically designed to ensure snap fix installation, minimising the need for excessive mechanical fixing.
- Both 16mm and 28mm Furring Channels available in variable standard lengths to accommodate a range of options.
- Knurled face to Furring Channels to limit screw slip during lining installation.
- Full suspension, or direct fix applications.
- Variable lengths of Direct Fix Clips to ensure flexibility of installation.
- 30 year warranty when installed to T&R Design requirements.
- All hot dipped galvanised steel componentry ensures maximum durability and stability whilst avoiding twisting and bowing.
- A range of galvanised angles, and perimeter 'C' channels available.
